# Associations of Alumni

---

## Professional associations

Professional associations for alumni exist both on the university level and at individual faculties. They exist to cultivate contacts among alumni working in the same profession. Most faculties have a section of their website devoted to alumni, where they present up-to-date information on events and meetings. Most alumni associations have websites in Czech.

## Student clubs and societies

Most of the University's clubs and societies are open to students and alumni. Their activities include music, singing, sports, cultural and social events. This section lists the societies that have websites in English.

## Alumni societies at universities abroad
