## OpenOffice

1. Under "File", select "Export to PDF"

2. In the window "PDF options", select "PDF/A 1a" and export the document by clicking on "Export".

General	Initial View	User Interface L	inks Security		
Range	Range				General
(a) [AII]				PDF/A-1a	
Pages					🔽 🔤 ed PDF
Selection					Create Cform
Images					Submit <u>for at</u>
Ossless compression					🔲 Allow duplics.
<u>JPEG compression</u>				🔽 Export <u>b</u> ookmarks	
Quality		90 %	*	Export comments	
<u>Reduce image resolution</u>		resolution	300 DPI 👻	-	Export automatically
					Embed standard font
					Embed this documer
0					

Save the document in the usual manner.
Warning: the "Direct export to PDF" button in the upper toolbar does not allow PDF file properties. Use "Export to PDF" from the "File" option.
