Instructions for Linux

The following procedures are for submitting or exporting thesis in the PDF/A format required in Rector's Measure no. 72/2017 – Accessing the Electronic Database for Theses.
These procedures are primarily used for submitting or exporting the thesis text. However, we highly recommend also using them for creating annexes, even image annexes. The measure requires that students submit the thesis text in PDF/A, version 1a or 2u.

The following links contain instructions for creating PDF/A 1a or 2u in the specific applications.

LibreOffice Writer (free of charge)
OpenOffice (free of charge)
Export from TeX (free of charge)
