- cooperates on the publication outputs of the project,
- is responsible for high-quality processing of outputs to foreign publications,
- works on key project activities as directed by the supervisor.

Faculty of Science (1. 3. 2021)

SECTION OF BIOLOGY

with anticipated starting date of employment on September 1st 2021

- Head of the Department of Experimental plant biology for faculty academic staff and non-faculty candidates and also for non-faculty candidates the position of academic with a focus on experimental plant biology (position on boarding: Associate professor/professor)

Qualifications:

- successful completion of the habilitation procedure or professor appointment procedure

- Head of the Department of Parasitology for faculty academic staff and non-faculty candidates and also for non-faculty candidates the position of academic with a focus on parasitology (position on boarding: Associate professor/professor)

Qualifications:

- successful completion of the habilitation procedure or professor appointment procedure

- Academic with a focus on Botany of vascular plants (position on boarding: Lecturer)

Qualifications:

- completed master’s degree from Botany
- Czech and English language at the communication level
- pedagogical skills

Specifications: predominantly lecturer position, the main scope is teaching of courses aimed at the systematics and morphology of vascular plants including field excursions for bachelor students, collection and preparation of material for the practices and organisation of student evaluation.
SECTION OF CHEMISTRY
with anticipated starting date of employment on June 1st 2021
• Academic with a focus on Mathematics (position on boarding: Lecturer – part-time job)
Qualifications:
• completed bachelor’s or master’s degree
• English at the communication level
• pedagogical skills, computing skills
Specifications: teaching focused on application in geoinformatics and cartography.
with anticipated starting date of employment on September 1st 2021
• Head of the Department of Physical and macromolecular chemistry for faculty academic staff and non-faculty candidates and also for non-faculty candidates the position of academic with a focus on physical and macromolecular chemistry
Qualifications:
• at least completed Ph.D., Th.D. or CSc. degree or comparable position in abroad
• English at the communication level
• experience with leading a professional team

SECTION OF GEOGRAPHY
with anticipated starting date of employment on June 1st 2021
• Academic with the focus on cartography (position on boarding: cartographer / geoinformatics)
Qualifications:
• Ph.D. in the field of cartography, geoinformatics, or other geosciences, or master’s degree in the field of cartography or geoinformatics with the condition of entering the Ph.D. study
