# Strategic Plan 2016-2020

---

The strategic plan for 2016–2020 follows up on the plans adopted in 2004 and 2011, and their updates. The plan reflects the rapidly changing situation in education, research and creative activities, as well as the university's role in the society. It also sets new goals and mission for our Alma Mater for the upcoming years, following up on all good things realized in the past.
