Our Bachelor’s study programme in **Computer Science** is intended for students who would like to learn the lasting foundations of computer science and become proficient in its methods and approaches. This study program usually takes three years to complete but after the first year of study, you can already choose a specialisation that you like best – General Computer Science, Databases and Web or Artificial Intelligence. After you successfully complete your studies, you will be awarded an internationally recognized title of Bachelor of Science.

Further information about this study programme can be found at the [faculty's website](#), including useful tips and other details.

If you wish to [study in the Czech language](#), there are more Bachelor's study options to choose from. See [here](#) for the available programmes and their requirements.
