The public healthcare in the Czech Republic has outstanding quality, great availability, and practically no additional costs other than the compulsory EU-wide insurance fee. Having this insurance, you are able to get outpatient care and regular check-ups with both general practitioners and medical specialists. Help in emergency situations is available to everybody at all times. Usually, there is no need to visit a private practice, unless you require a non-standard medical care.

Note, that non-prescription drugs and medicines are sold only in pharmacies. These may be recognised by the prominent green cross-displayed over the shop-front. If you are not able to get to the pharmacy for any reason, you can use one of the delivery services such as [Rohlik.cz](#).

Students from EU + EEA/EFTA have access to urgent, state-provided healthcare during their stay in the Czech Republic. In order to receive the appropriate medical treatment, **all you need is a blue EHIC card, which you must register with a Czech health insurance company.**

Foreigners with visa requirements are obliged to take out health insurance covering comprehensive healthcare with a registered insurance provider, for long-term stays exceeding 90 days. This insurance is valid in all member states of the Schengen area. You can choose from three different tiers (packages) differentiated by the provided services. For shorter stays, regular travel insurance pre-arranged in your home country will suffice.

**NOTE:** Medical travel insurance is not required from citizens of the member states of the International Treaty on Cooperation in the Area of Health and Social Security. The same exception applies to participants of the Erasmus Mundus program, Fulbright scholarship program, European Voluntary Service of the EC Youth in Action programme, as well as holders of the GHIC card issued by the UK.

**Where to seek help?**

Students of the medical and pharmaceutical faculties should consult their faculty's options first via the following links:

- Second Faculty of Medicine in Prague
- Third Faculty of Medicine in Prague
- Faculty of Medicine in Pilsen
- Faculty of Medicine in Hradec Králové
- Faculty of Pharmacy in Hradec Králové (MUDr. Petra Hošková)

**NOTE:** Always notify the attending physician or nurse about your health insurance company while making an appointment and before entering the ambulance.
