
CU Equal Opportunities Board

One of the first steps taken under the Equal Opportunities Plan was the creation of the Equal Opportunities Board. The Board was established by Rector's Measure No. 31/2022 Constitution of the Equal Opportunities Board of Charles University and is an advisory body of the Rector and the relevant Vice-Rector or the member of the Rector's Board entrusted with the equal opportunities agenda. In particular, the Board's remit is to provide opinions, recommendations and feedback in the field of equal opportunities and the mediation of information between the Rector, the CU Rectorate, individual faculties and other units. The Board has no executive powers.

The Board meets at least three times a year. In the time between these meetings, it participates in various activities related to equal opportunities (for example, organisation of awareness-raising events) or offers professional feedback in the form of commenting on intra-university documents. Working groups are set up within the Board to address specific topics within the equal opportunities agenda.

The Board has at least seventeen members, who are appointed by the Rector primarily from candidates nominated by faculties and other units (the "faculties"). Each faculty may nominate one candidate to the Rector. One member of the Board is appointed by the Rector on the advice of the Academic Senate of Charles University.
