Bachelor’s & Master’s
Study Programmes in Foreign Languages
Academic year 2021/2022
Admission procedure

Choose a study programme
www.cuni.cz/applicationform

Faculty website – www.cuni.cz/faculties
Information on specific admission requirements and application procedures and secondary school/university diploma recognition.

Online application form
www.cuni.cz/applicationform
Available also on the faculty website.

Recognition of previous education
Must be submitted to the faculty by the enrolment date, unless specified otherwise.

Confirmation of application
Wait for an invitation letter/email to the entrance exam (if applicable).

Visa for up to 90 days (if necessary)
Prospective students with visa duty taking the entrance exams in the Czech Republic are advised to apply for a short-term visa to be able to enter the Czech Republic for the exams.

Entrance exams (if applicable)

Letter of acceptance

Long-term visa or residence permit
for the purpose of studies (if needed)

Enrolment
at your faculty’s Study Affairs/International Office.

Commencement of the academic year
October 1
Bachelor’s and Master’s Study Programmes

Charles University is a leading research university that combines high-quality science, research and education on both a global and national scale. There are 17 faculties which are financially independent and self-governing, but relate to the central University. There are approximately 46,000 students studying at CU, including many international students from all around the world. Charles University offers degrees in Bachelor’s, Master’s and Ph.D. study programmes.

REQUIREMENTS AND STANDARDS

All prospective students have to meet the following admissions criteria:

- Be high school graduates (Secondary school leaving certificates gained abroad are subject to nostrification. Nostrification is part of the application process. Successful applicants will have to provide their certification before/during enrolment or by the date stated by the faculty).
- Applicants applying for a follow-up Master’s degree programme must hold a Bachelor’s degree (usually in a related field).
- Applicants applying for a doctoral (Ph.D.) study programme must hold a Master’s diploma.
- All applicants are required to submit a completed application form with a non-refundable application fee (if applicable) to the respective faculty. Some faculties require the applicants to pass entrance exams (usually written and/or oral exam; practical exam may also be required). More specific entry requirements are determined, in accordance with the law, by the dean of the faculty.
- If applying for studies in Czech, the entrance exams are administered in the Czech language. If applying for studies in English, the exams are all in English and no knowledge of the Czech language is required.

Application Forms

Students can submit their applications using the central university online application system. The application forms are also available at the faculty websites.

Entrance Exams

Exams (if applicable) are held from May to July according to the respective faculty.

LEGAL CONDITIONS FOR INTERNATIONAL STUDENTS

General Information

Foreign nationals (with the exception of EU/EEA members and citizens of Switzerland) applying to study in the Czech Republic have to contact the Czech Embassy or the
Visa and Residence Permit
Due to the Czech Republic’s membership in the EU, citizens of the European Union (EU) countries, citizens of the European Economic Area (EEA) countries, and citizens of Switzerland do not require a visa for any type of visit or stay in the Czech Republic.

Other nationals need to go to the Czech Embassy to apply for either a long-term visa for the purpose of studies (for stays over 90 days up to several months) or a long-term residence permit for the purpose of studies (if they intend to stay longer than 1 year). The advantage of the residence permit is longer validity and the possibility of changing its purpose of stay. On the other hand, the visa for the purpose of studies is free of charge while the application for a long-term residence permit for the purpose of studies costs CZK 500 and then CZK 1,000 when collecting the residence card in the Czech Republic. When applying for the long-term residence permit, students will receive a special single-entry visa for the purpose of collecting the long-term residence permit (a plastic biometric card) in the Czech Republic. This type of visa is granted for a maximum stay of 60 days.
The First Faculty of Medicine has been a part of Charles University since its foundation in 1348 and is the oldest medical faculty in Central Europe. The basic purpose of the faculty is to train medical doctors and provide them with broad general medical education as well as a thorough theoretical basis, so that they are able to think and communicate scientifically and medically, and offer basic medical care.

**Long-cycle Master’s Programmes:**
- **General Medicine** (6 years, MUDr. degree)
- **Dentistry** (5 years, MDDr. degree)

The curriculum is finished with the degree MUDr. – “Medicinae Universae Doctor” (M.D.) = Doctor of General Medicine or MDDr. = Doctor of Dental Medicine. The degrees are fully recognized in the EU and in most of other countries. Both medical programmes are based on regular full-time studies and have a structure of traditional courses, which means that teaching includes both theoretical and practical/clinical trainings. Graduates of the General Medicine programme are ready to pursue a career in various fields of medicine as well as the Dental Medicine graduates are ready to work in dental medicine and associated fields.

**Application Procedure**
Applicants may apply directly by filling in the online application form or by contacting one of our representatives, who will help them. The application fee is CZK 820. Without payment, the applicant will not be allowed to attend the entrance exam. Students are offered a place at the Faculty based on their result in the entrance examination. It consists of a written multiple-choice test from biology, chemistry and physics and an interview for those who successfully pass the written part. Successful candidates must achieve at least 244 points out of 330. Naturally, both the test and the interview are in English and supervised by the Faculty’s examiners. Successful applicants will have to provide a valid certificate of secondary school education. The maximum number of enrolled students is 150 for GM and 20 for Dentistry. Should you wish to apply through one of the official representatives, please contact them for details.

**Application form:** online  
**Application deadline**: April 30, 2021  
**Annual tuition fee**: CZK 400,000  
**Application fee**: CZK 820  
**Transfer**: no  

**Entrance exam dates**: June 4, 2021  
/ alternative date June 18, 2021  
**English language requirements**: proficiency will be assessed during the interview
The faculty came into existence as an independent faculty of paediatric medicine in 1953 when paediatrics was separated off from what was then the Faculty of Medicine. Since 1990, when major changes in the content and style of studies took place, the Faculty has been known as the 2nd Faculty of Medicine. Studies at the 2nd Faculty of Medicine may only be undertaken on a full-time basis in the field of general medicine, and take six years. Graduates of the faculty are equipped for careers in any branch of medicine.

They are well prepared for careers in family medicine, for specialized paediatric fields and other areas where a continuous and dynamic developmental view of the patient is essential. The teaching programme involves theoretical and pre-clinical subjects (1st to 3rd year) followed by the clinical disciplines (4th to 6th year). Every international student is obliged to pass an examination from the Czech language at the end of their 3rd study year to be able to communicate with patients and the staff during their study of clinical subjects. During their study, the students also have an opportunity to get the basic knowledge in a field of research or medicine of their choice.

**Long-cycle Master’s Programme**
- **General Medicine** (6 years; M.D. degree – MUDr. = Medicinae Universae Doctor)

**Admission Requirements**
The entrance exam is held in Prague at the Faculty. (Or additionally, it can take place in selected locations abroad in cooperation with recruitment agencies).

The entrance procedure has two parts, a written test and an interview. The written part includes biology, physics, chemistry and a logical decision test (4 x 15 questions). The required level of knowledge corresponds to that of secondary education. The topics and examples of the entrance test can be found on our website. To minimize any problems, the evaluation of completed written tests is anonymous and fully computerized. For updated information, please see our website. Applicants with the best results from the written test will be enrolled for the interview which will take place on the same day.

The examination committees consist of three Faculty members. The interview is focused on the applicant’s ability to discuss different topics based on general education (such as cultural, social, ethical or health problems etc.) with valid reasoning to their argumentation. The total number of points obtained during the entrance examination (the sum of points for the written test and the interview) is the decisive factor for successful admission into the study programme. The final results are announced at the end of the entrance exam day.
Estimated number of accepted students: max. 90
Application form: online
Application deadline*: April 30, 2021
Annual tuition fee**: CZK 330,000
Application fee: CZK 820
Entrance exam dates: May 25, 2021 / alternative date June 29, 2021
English language requirements: fluent

Transfer: yes
Transfer from another faculty of medicine is possible under very specific conditions. See the faculty website for more information: http://www.lf2.cuni.cz/en/study/applicants/conditions-for-transfer or contact: stanislava.palowska@lfmotol.cuni.cz
The Third Faculty of Medicine of Charles University was separated from the Faculty of General Medicine in 1953 as an independent Medical Faculty of Hygiene, which then specialized in problems of hygiene and preventive medicine. In 1990 the faculty developed a new study programme and a revised conception of studies, which emphasized a primary orientation toward general medicine while retaining a specific interest in preventive care. The medical (Master’s) programme takes 6 years, with the first two years focused on basic medical sciences, the third year on pre-clinical subjects and the fourth to the sixth year on clinical practice. Preventive medicine is included in both types of training, theoretical and clinical.

**Long-cycle Master’s Programme**

- **General Medicine** (6 years; leading to MUDr. degree = Medicinae Universae Doctor)

**Admission Requirements**

The Faculty seeks students with an appropriate academic qualification, good command of English and high motivation to study medicine. There is an obligatory entrance examination consisting of two parts. The first part is a multiple-choice test in chemistry, biology, and physics or mathematics (30 questions for each subject). The second part consists of an interview focused on the motivation and general knowledge of the student together with an interpretation of a scientific text.

Prerequisites for admission without the need to carry out an entrance examination are available on the website: [https://www.lf3.cuni.cz/3LFEN-11.html#15](https://www.lf3.cuni.cz/3LFEN-11.html#15)

**Number of admitted applicants**: approx. 90 students  
**Application deadline***:  
- March 31, 2021 for the entrance examination in May 2021  
- April 30, 2021 for the entrance examination in June 2021  
- The entrance exams also take place in Oslo, Limassol, Galway, London, Düsseldorf, Berlin, Lisbon, Madrid, Tel Aviv (earlier applications required) – for further information see the faculty website: [http://www.lf3.cuni.cz](http://www.lf3.cuni.cz)

**Annual tuition fee***: CZK 350,000  
**Application fee**: CZK 820  
**Application form**: online  
**Entrance exam dates in Prague**: May 31, 2021 / alternative date June 29, 2021  
**English language requirements**: not specified  
Premedical Course
Each year the Third Faculty of Medicine, Charles University, offers a 5-month preparatory course for international students taught in English. The intensive premedical course aims to prepare the applicants for successful passing of the entrance examinations to study General Medicine in the English curriculum. The course consists of lectures in subjects tested in the entrance examinations for medical programmes. In addition, there are two other classes: basics of communication in the Czech language and medical English.

Duration: January 12 – May 27, 2021
Application deadline*: September 30, 2020
Tuition fee**: CZK 110,000

Applicants must make their own arrangements for accommodation and health insurance coverage. To learn more about the Premedical Course, please go to: http://www.lf3.cuni.cz/3LFEN-15.html
The Faculty of Medicine in Pilsen was founded in October 1945 as a branch of the Prague Medical Faculty and in 1953 it became an independent faculty of Charles University. Teaching is generally performed in Czech, but in 1992 the Faculty introduced a parallel Medical Study Programme in English. Students receive training for the medical profession as well as for research in medical sciences.

In the first two years of General Medicine, students focus on theoretical disciplines, such as Anatomy, Histology, Embryology, Biophysics, Biochemistry and Physiology. During the third and fourth years, pre-clinical subjects, such as Pathology, Pathological Physiology, Microbiology, Immunology and Pharmacology are studied. Bedside teaching is also introduced in the third year. The last two years of studies are fully focused on clinical subjects. The first two years of Dentistry studies focus on theoretical disciplines and preclinical Dentistry, the third, fourth and fifth years are oriented on clinical stomatology.

Master’s Programmes
- General Medicine (6 years, MUDr. Degree)
- Dentistry (5 years, MDDr. Degree)

A degree Doctor of Medicine – MUDr. (Medicinae Universae Doctor) or a degree Doctor of Dental Medicine – MDDr. (Medicinae Dentium Doctor) are awarded after successful completion of the study programme. These degrees are widely recognized in most countries around the world.

Admission Requirements
The applicant must pass the entrance examination. The examination consists of a multiple choice test in chemistry, biology and physics. The admission of students remains, however, within the responsibility of the Dean of the Faculty.

Students who fail the entrance examination may not retake the exam during the same academic year. Depending on the outcome of the examination, those who achieve the required results enrol at the Faculty of Medicine in Pilsen in September of the same year. They are to submit their secondary school diplomas/certificates translated into English or Czech and legalized according to the requirements on the website – http://www.lfp.cuni.cz/sekce/134-when-passed-the-entrance-examination-test-successfully.html.
Admission Exam
● In June 2021 at the Faculty of Medicine in Pilsen
● During spring and summer in the applicant’s country (if the entrance examination is organised by the appropriate agency (Germany, Greece, Italy, Portugal, Sweden))

Application deadline*: April 30, 2021
Annual tuition fee**:
● CZK 300,000 (General Medicine)
● CZK 340,000 (Dentistry)

The fee covers all instruction (lectures, seminars, laboratories, clinical training and tutorials).

Application fee: CZK 820 (online) / CZK 870 (paper)
Entrance exam dates: June 2021 (the exact date will be announced in advance)
English language requirements: not specified
Transfer: no
This Faculty started its educational activities in 1945 as the first Charles University Faculty outside Prague. Since 1992, the Faculty has been organising study programmes in English. In the academic year 2020/2021 there is a total of 1,512 students in General Medicine and Dentistry study programmes (including 376 international students from 60 different countries). 105 places in General Medicine and 25 places in Dentistry are available in the first year of English courses.

The curricula of Czech and English study programmes are entirely parallel and fully comparable with the current international standards. They are accredited throughout the world including the EU and USA (our graduates are successful in USMLE tests).

Study programmes in General Medicine (6 years) and Dentistry (5 years) are arranged along the lines of theoretical, pre-clinical and clinical studies in 42 theoretical (pre-clinical) departments, clinics and institutes. The clinical instruction takes place in the Faculty Hospital – a complex of 37 clinics and departments with 1,500 beds and a staff of 4,000 doctors and nurses.

Two types of accommodation are available – hostel type and private flats for renting. See up-to-date information on our web page.

**Master’s Programmes**
- **General Medicine** (6 years) leading to MUDr. = Medicinae Universae Doctor (equals to M.D. degree)
- **Dentistry** (5 years) leading to MDDr. = Medicinae Dentium Doctor

**Admission requirements**
Students who have completed secondary school education are considered eligible for medical studies. There is an entrance examination held in English based on a written testing (multiple choice) of the applicant’s knowledge of basic science (basic human anatomy and physiology, biology, chemistry, physics).

Requirements for the entrance procedure are specified on our website [http://lfhk.cuni.cz](http://lfhk.cuni.cz) (under “Applicants – Undergraduate study – Admission Process”).
Application form: online
Application deadline*: April 30, 2021
Entrance exams take place in Hradec Kralove and in about 20 locations abroad according to requests of our co-operating agencies – see info and the list of agencies on our web pages.

Annual tuition fee**:
- CZK 310,000 (General Medicine)
- CZK 340,000 (Dentistry)
Application fee: CZK 820

Entrance exam dates: https://www.lfhk.cuni.cz/Applicants/Undergraduate-Study/Admission-Process/Entrance-Examination-Terms/
English language requirements: not specified
Transfer: no

Premedical Course

Optional pre-medical course is available at Charles University, Institute for Language and Preparatory Studies

Over the centuries the study of pharmaceutics has undergone many developments and organizational changes. The CU Faculty of Pharmacy in Hradec Kralove draws on a centuries-old tradition of the study of pharmacy reaching back to the very beginning of Prague university (since 1348 when the university was founded, the apothecaries from different Prague quarters became members of the university community and were recorded in the university roll). The independent Faculty of Pharmacy was established in 1969 on the basis of a government decree.

Master’s Programmes:
- Pharmacy (5 years)
- Pharmaceutical Sciences (2 years)

MASTER’S PROGRAMME PHARMACY (5 YEARS)

Deadlines
- The deadline for filling in the online application form (www.faf.cuni.cz/Admission/Undergraduate/Study-in-Czech-Republic/) for admission is May 31, 2021.

Admission requirements
- The Faculty of Pharmacy seeks students with an appropriate academic qualification, good command of English and high motivation to study Pharmacy. Written tests include a multiple-choice test in chemistry (50 questions), biology (30 questions) and botany (20 questions). Level of English language will be tested in an English grammar test (40 questions).
- In the final evaluation of the candidate’s success, students will obtain points only for correct answers, they will get 1 point for each correct answer in Chemistry and Biology. Students will obtain points only for correct answers, they will get 0.5 point for each correct answer in English language test. In case the candidate does not answer or misspells any question, points will not be deducted.
- The Dean of the Faculty will set the number of points required for the admission with respect to the number of applicants and students’ capacity of the Faculty.

Recognition of documents verifying a completed secondary education
- Nostrification in terms of the admission procedure – processed by our Faculty
- Nostrification in terms of the admission procedure – for general nostrification procedure please follow the website https://cuni.cz/UKEN-593.html/
- Info on web page: www.faf.cuni.cz/Admission/Undergraduate/Pharmacy/

Entrance exams
www.faf.cuni.cz/Admission/Undergraduate/Pharmacy/Admission-Requirements/
MASTER’S PROGRAMME PHARMACEUTICAL SCIENCES (2 YEARS)

Deadlines
• The deadline for filling in the online application form (www.faf.cuni.cz/Admission/Undergraduate/Study-in-Czech-Republic/) for admission is May 31, 2021.
  More information: www.faf.cuni.cz/Study/Undergraduate/Pharmaceutical-Sciences/

Admission requirements
• The Faculty of Pharmacy, as a part of Charles University, Czech Republic, seeks students with an appropriate academic qualification, good command of English and high motivation to study Pharmaceutical Sciences.
• Bachelor’s degree or equivalent first degree obtained from an internationally recognized university in the field of pharmacy, biomedicine, life sciences and study disciplines related to human biology (e.g. physiology, biochemistry, pathology) and chemistry (e.g. organic chemistry, analytical chemistry) is required. Recognized universities are accredited as a university in their own country by the responsible national authority. Bachelor’s degree must be awarded before the commencement of lectures (beginning of the academic year) at the Faculty of Pharmacy, but not necessarily at the time of application.
• Written tests include a multiple-choice test in Pharmaceutical Botany (20 questions), Organic and Bioorganic Chemistry (20 questions), Human Physiology and Pathophysiology (20 questions), Biochemistry and Pathological Biochemistry (20 questions) and Analytical Chemistry (20 questions). Level of English language will be tested by English grammar test (40 questions).
• In the final evaluation of the candidate’s success, students will obtain points only for correct answers, they will get 1 point for each correct answer in Chemistry and Biology. Students will obtain points only for correct answers, they will get 0,5 point for each correct answer in English language test. In case the candidate does not answer or misspells any question, points will not be deducted.
• It is the responsibility and right of the Dean of the Faculty of Pharmacy to set the threshold level of points required for the admission with respect to the number of applicants and students’ capacity of the Faculty.

Documents required for acceptance for studies
• Recognition of documents declaring the completion of bachelor’s degree
• Nostrification in terms of the admission procedure – processed by our Faculty
• Nostrification in terms of the admission procedure – for general nostrification procedure, please follow the website https://cuni.cz/UKEN-593.html

Application form: online
Application fee: CZK 820
Application deadline*: May 31, 2021 (visa applicants are advised to apply earlier)
Entrance exam: https://www.faf.cuni.cz/Admission/Undergraduate/
Transfer: only to the 1st year
Annual tuition fee**: EUR 7,600
The Faculty of Arts of Charles University was established in 1348. For centuries, right up to the middle of the last century, every university-trained student had to graduate from it. It can be said that its history is, in a certain sense, the history of the entire university. Since being granted its independence at the beginning of the 19th century, the Faculty of Arts has been concentrating on its principal concern – the humanities. Today, it is one of the largest CU faculties.

Master's programmes:
- **TEMA+ European Territories: Heritage and Development** (Erasmus Mundus Joint Master programme), bilingual English and French
- **Logic**

**TEMA+ EUROPEAN TERRITORIES: HERITAGE AND DEVELOPMENT**

TEMA+ is a two-year long (120 ECTS) bilingual (English and French) Erasmus Mundus Joint Master Course, coordinated from Eötvös Loránd University Budapest, in cooperation with the European Heritage Label (EHL) and different UNESCO organs. The mobility tracks of the students are divided among the coordinating university (Semester 1) and the four partner universities (École des Hautes en Sciences Sociales in Paris, University of Catania, Charles University, Prague and Université Laval, Quebec for Semester 2–3 and chosen individually for Semester 4 among the five universities). The consortium awards students with double or multiple degrees, all accredited at the national level.

During the four semesters, our students can learn about the theory and practices of cultural heritage, the history of its institutionalization in Europe and in the respective partner countries, complemented by courses on nationalism, immigration, comparative historiography and digital heritage. These theoretical courses are accompanied by methodological and tutorial seminars during the two years and at least one obligatory internship at a non-academic associated member of the consortium (among others, national and international cultural heritage institutions, museums, EHL or UNESCO sites and organs). Hence, students graduating from the TEMA+ programme will not only belong to the well-established and prestigious TEMA-community but will also be connected to the international and professional world of European Heritage.

Throughout the programme, the system of personal tutoring and the close relationship between the general academic staff and the students ensures that students are assisted wherever possible, and helps to further the inclusion and equity of all students. Candidates are selected in accordance with the admission criteria agreed jointly by the partner universities. Candidates upload their documents through the online
application system to the TEMA+ website and send the application package with the hard copy to the address of the TEMA Secretariat in Budapest. For the criteria, see here: https://mastertema.eu/selection-procedure

**Application deadline**: March 22, 2021 (23:59 CET) (Erasmus Mundus Scholarships) / June 21, 2021 (self-funded)

**Starting date**: September 2021

**Study period**: 2 years

**Language**: English and French

**Tuition fee for Programme Country students**: EUR 3,000 / year

**Tuition fee for Partner Country students**: EUR 6,000 / year

(see: https://mastertema.eu/tuition-fees)

**LOGIC**

**Forms of Study**
Single Subject Study or Double Subject Study. The logic Master’s programme is designed to offer a wide selection of topics, from set theory, classical and non-classical logics to philosophy of mathematics and exact sciences. The standard duration of the programme is 2 years.

In the first year, students attend several courses which lay the foundations for further work and introduce students to prominent areas of logic. Students learn and deepen their knowledge of classical and non-classical logics (Gödel’s theorems, computability aspects, review of basic non-classical logics and their use), set theory and model theory, and the philosophical aspects of mathematical sciences. These introductory courses are helpful for students to identify their preferable field of logic and to choose optional courses which will lead them to their master thesis and the chosen field of study. There is also room for optional courses in the first year of the study.

In the final year (second), students focus on their master thesis while extending their knowledge, based on the selection of optional courses they find intriguing. The optional courses are organized into three blocks to help students to orient themselves and correspond to the specializations of the researchers at the department. Students may choose optional courses from multiple blocks simultaneously, i.e. they do not need to choose one block only.

The first block specializes in set theory and abstract mathematics. Set theory is the universal language of mathematics and studies problems across mathematical disciplines.
Students will learn methods and results at the edge of current research, with focus on forcing, independence results, and connection between set theory and general mathematics. Researchers at the department of logic specialize in this field and are members of international teams and grants.

The second block focuses on classical and non-classical logics and studies it from the point of expressive power, computability aspects and use for modelling computation-related problems. Department of logic builds on extensive cooperation with the prominent logical and mathematical institutes in Prague and offers optional courses in non-classical and fuzzy logics and abstract algebraic logics.

The third block offers courses on philosophical and foundational aspects of logic in general, and more specifically on modern mathematics and set theory. Building on the philosophical, set-theoretical and mathematical foundations received during the introductory courses, students are able to identify and expand connections on the border of the mathematical and philosophical sciences. Department of Logic cooperates with mathematical and philosophical departments in Prague and also on an international scale.

After defending the thesis and graduating, all students receive a master degree from Logic. With the master degree, students can embark on their professional career or start a doctoral programme. Department of logic offers a doctoral programme (Ph.D.) for interested graduates.

The Faculty of Law was one of the four founding faculties of Charles University in 1348 and as such, it is ranked among the oldest law faculties in Europe. For its more than 4,500 regular students, it offers a complete legal education (providing both master and doctoral programmes). Among the teachers, there are prominent legal scholars, international judges, practicing lawyers etc.

INTERNATIONAL MASTER OF LAWS (LL.M.)

The LL.M. Programme is a specialized curriculum designed for graduates who already possess their first university degree in law. The aim of the Programme is to deepen knowledge of the participants in the chosen area and to improve their theoretical as well as practical legal expertise and excellence. To this end, the content of individual courses within the LL.M. curriculum is not to be purely theoretical, but quite to the contrary – the courses are highlighted by an interactive approach focused on practical skills and knowledge. It is undertaken to offer various extracurricular activities to the participants – such as case studies, moot courts, clinics, excursions, mini-conferences etc. Prominent international scholars will also be invited to participate in the programme, either by having individual lectures or whole courses.

The LL.M. is offered in three different specializations.

THE LAW AND BUSINESS IN THE CZECH REPUBLIC AND CENTRAL EUROPE

This LL.M. programme offers its participants a unique chance to cover in detail all areas of the Private Law relevant for Central European countries. That means that the programme does not solely deal with local legislation governing business activities. On the contrary, it provides students with broad exposure to various fields and relevant regulations. Special emphasis is given to the legislative impact of the European Union and also to the aspects of Private International Law. An integral part of the programme will be excursions – e.g. to the Czech National Bank, High Court in Prague, Metropolitan Court in Prague, Stock Exchange, Economic Chamber of the Czech Republic, Agricultural Chamber of the Czech Republic, Arbitration Court attached to the Economic Chamber of the Czech Republic and to the Agricultural Chamber of the Czech Republic. With additional background given to the general economic theories and issues, this programme is aimed especially
at lawyers potentially or already working in the economic sector as in-house counsels, auditors or attorneys specialized in Business Law.

**General Courses**
- Business and Commercial Law
- Civil Law and Judicial Protection of Rights
- EU Regulation of 4 Market Freedoms and EU Competition Law
- International Economic Law
- Private International Law and International Business Transactions

**Courses of Specialization**
- Comparative Civil Law
- EU Law – General Introductory Course (mandatory for students from non-EU countries who cannot prove previous sufficient background in EU Law)
- Financial Law
- Intellectual Property Law in European Context
- Labor Law and Social Security Law
- Public Policy: An Economic Perspective
- Regulation of Business Activities by Administrative Law and Environmental Law

**INTERNATIONAL HUMAN RIGHTS LAW AND PROTECTION OF THE ENVIRONMENT**

This LL.M. programme, which focuses on international human rights law and protection of the environment, offers an interdisciplinary approach to these two fields, which are closely connected in international theory and practice. International human rights and liberties protection as well as international and national protection of the environment are marked by very dynamic development. The interdisciplinary approach of this programme is exhibited by a combination of perspectives from different legal branches. First of all, there is a focus on International Law, European law and Environmental Law; other relevant legal disciplines will then be presented. The current concept of the LL.M. programme, which connects the protection of human rights and Environmental Law, corresponds directly to modern trends and should be attractive for applicants who are interested in the connection of these two subjects.

**General Courses**
- Environmental Law in the Czech Republic
- Environmental Policy and International and European Law
- European System of Human Rights Protection
- Introduction to the International Human Rights Protection System
- Theory and Practice of International Public Law

**Courses of Specialization**
- Development of Supranational Integration and European Law
- Environmental Law and its Functioning in Central Europe
- EU Law – General Introductory Course (mandatory for students from non-EU countries who cannot prove previous sufficient background in EU Law)
- Human Rights and the Environment
This LL.M. programme seeks to provide its participants with a unique opportunity to become familiar with intricate legal issues related to human health, mental and physical well-being, healthcare systems and also sport activity. Graduates from this specialisation may find legal jobs in various institutions of the healthcare system such as hospitals, ministries and other public agencies. Given the fact that the programme covers substantially also the area of sports law, graduates may enhance their knowledge and skills for future employment with various sport associations or clubs. In addition, those interested in pursuing a career in the pharmaceutical sector or as attorneys specialised in health and/or sports law may find this programme beneficial.

Mandatory courses cover areas such as general introduction to health and sports law, liability of healthcare practitioners and facilities, pharmaceutical law and bioethics. Additional optional courses enable the participants to focus more closely on various related areas, where law meets with issues connected to health, e.g. healthcare systems in comparative cross-cultural legal perspective, doping and law, public health, liability issues and contracts related to physical activities and sport, dispute resolution of specific sport-related disputes.

**General Courses**
- Introduction to Health Law
- Legal Liability in Healthcare
- Pharma Law and Law on Medical Devices
- Ethics, Medicine and Law
- General Introduction to Sports Law and Related Health Policy

**Courses of Specialization**
- Public Health
- Healthcare in Cultural and Religious and Other Perspectives
- US and European Perspectives on Health Related Issues in Sport
- Civil and Criminal Liability in Sport
- Contractual Obligations in Sport
- Doping, Health and Law Dispute Resolution in Sport-Related Matters

**Organization of the LL.M. Programme**
The LL.M. programme is organized into 3 semesters (two semesters of on-site study, one additional semester of distance study for writing a thesis and its defence). Students will be required to earn a minimum of 60 credits during the first two semesters through course work, written assignments and exams. Students are required to complete 5 general courses (each for 8 ECTS). Moreover, they are obliged to choose and complete at least 4 courses of specialization (each for 5 ECTS). In the third semester, students are expected to attend an LL.M. thesis seminar, complete the LL.M. thesis under supervision of a tutor and defend it before a committee. Upon defending the LL.M. thesis and meeting all other
requirements, the successful candidates are awarded the LL.M. degree (in compliance with Section 60a of the Act No. 111/1998 Sb.).

**Admission Requirements**

Each candidate must meet specific requirements and submit the application form (available online at www.prf.cuni.cz/llm) together with all required supporting documents listed here:

- Motivation letter;
- Candidates must hold a university degree in law and attach its verified photocopy;
- Two letters of recommendation from university professors;
- For non-native speakers proof of competence in the English language (TOEFL etc.) at B2+ level unless they carried out their previous university studies predominantly in the English language;
- Curriculum Vitae;
- Payment of the application fee of USD 200;
- List of previous scientific publications (if applicable).

Each candidate’s application will be reviewed by a committee comprised of professors and other representatives of the Faculty of Law after the application deadline. Successful candidates will be notified of their admission then after and will be asked to sign the Learning Agreement.

**Application form:** online  
**Application fee:** USD 200  
**Application deadline**: April 30, 2021  
**Language requirements:** proof of B2+ level in English  
**Entrance exam:** see the requirements above  
**Transfer:** no  
**Tuition fee**: USD 6,000 (for the whole programme) + application fee USD 200  
**Commencement of the programme:** October
The Faculty of Science was established in 1920 as the fifth faculty of Charles University. Nowadays, the faculty is academically and organizationally divided into four sections: biological, geographical, geological and chemical. In addition to these sections the faculty has several specialized teaching and research centres, including interdisciplinary institutions such as the Institute for Environmental Studies. All parts of the faculty are active in both teaching and research.

The primary mission of the Faculty of Science is to create highly qualified experts in biology, chemistry, geography, geology and in other interdisciplinary fields. Its scientific and research effort aims to solve key problems concerned with the development of human society. Some of the priority long-term subjects are human health, the study of the function and prediction of the development of ecosystems and the biosphere, and the development of environmentally-friendly materials based on the utilization of renewable resources.

MASTER’S STUDY PROGRAMMES BIOLOGY

Ecology (2 years)

The study plan is designed to achieve biological education with an emphasis on knowledge of interactions between organisms and between organisms and their environment, ranging from adaptations at the individual level and population dynamics to ecosystems and biosphere. It includes training in both field and experimental ecological work.

The Ecology Master’s programme has two specializations: Hydrobiology and Terrestrial Ecology. The study plan in Hydrobiology focuses on practical and theoretical aspects of the field, particularly of limnology, the study of inland aquatic ecosystems. The study plan of Terrestrial Ecology focuses on all general aspects of ecology, including molecular ecology and macroecology. Graduates of the program are able to use recent analytical approaches to quantitative ecological data. The graduate is well prepared for either highly demanding research work, including relevant Ph.D. study, or for professional and methodical (but not legislative) work, such as surveys, analyses or monitoring for state, public or commercial administrations.

Immunology (2 years)

Immunology is a dynamically evolving discipline integrating the knowledge of molecular and cell biology, physiology, histology and functional morphology (in the context of evolution and ontogenesis) relevant to the immune system. Immunology covers all levels of biological knowledge from molecules (cytokines, immunoglobulins, receptors, signalling molecules), cells (a wide array of immunocompetent cells), whole organisms (having transgenic animal
models in use and recently a microbiome influence and interaction with the immune system is being investigated) and communities (evolution of immune mechanisms, e.g. frequencies of different alleles regulating the immune response within a population). Clinical immunology is an important emancipated immunology specialisation, for which human beings are the object of research and application.

**Parasitology and Infection Biology (3 years)**

A graduate of the follow-up three-year Master’s programme of Parasitology and Infection Biology, which is taught exclusively in English and is intended primarily for international students, has expertise in various parasitic and pathogenic organisms (viruses, bacteria, fungi, protozoa, helminths, and arthropods), the causative agent of various diseases in humans, but also domestic animals. He has theoretical knowledge and practical experiences and skills on the detection and identification of various pathogenic agents, but also on their life history, pathogenicity, and epidemiology. Graduates of this Master’s program are familiar with the general methodology of biological work as well as with several special methods ranging from cellular and molecular biology, immunology and biochemistry, through bioinformatics and taxonomy to epidemiology and GIS methods. They are able to solve theoretical and practical problems related to diagnostics, control, and research of parasites and other pathogenic agents of infectious diseases at multidisciplinary level, both in health care (e.g., in diagnostic laboratories) and in basic and/or applied research, in the governmental but also in the commercial sphere, especially in the pharmaceutical industry or biotechnology companies.

**Admissions Requirements**

- Completion of at least a Bachelor’s university degree
- Passing grade on the admissions examination (single-round, oral interview)
- Applicants will be accepted in order based on the scores of their admissions examinations.

The cut-off scores for admission to individual study programmes and departments will be determined by the Dean of the Faculty taking into account the number of applicants taking the admissions examination and the capacity of the faculty.

**Detailed information:**

[https://www.natur.cuni.cz/eng/study/applicants/msc.-study](https://www.natur.cuni.cz/eng/study/applicants/msc.-study)

**Application form:**

[https://is.cuni.cz/studium/eng/prijimacky/](https://is.cuni.cz/studium/eng/prijimacky/)

**Application fee:** CZK 820

**Application deadline**: February 28, 2021

**Annual tuition fee**: CZK 30,000 (Ecology) / CZK 60,000 (Immunology, Parasitology and Infection Biology)

**Entrance exam dates**: June 14–18, 2021 / alternative date June 28, 2021
Mathematics and astronomy have been taught at Charles University since its foundation in 1348. At that time, these sciences were part of Liberal Arts taught at the Faculty of Arts. In 1920 the Faculty of Science was created by separation from the Faculty of Arts. In 1952 the Faculty of Science was divided into two new faculties – Faculty of Mathematics and Physics and Faculty of Science. Nowadays, the Faculty of Mathematics and Physics provides education in the fields of Mathematics, Computer Science and Physics, in three-year bachelor’s and two-year master’s programmes. The following study programmes and branches are opened for study in English in the academic year 2021/2022:

**BACHELOR’S PROGRAMME**

**Computer Science**

*Entry Requirements*

- Hold or be working towards a School Leaving Certificate (Diploma) or its equivalent; in cases required by Czech law, a certification of equivalence of education must accompany the application.
- Meet the reasoning requirements or fulfil them by sending us your transcripts of records from your high school.
- Provide a sufficient proof of English Language Proficiency; this should be demonstrated by providing your results with a required score in one of the standardized English tests. Any language test should not be older than two years.

**MASTER’S PROGRAMMES**

**Mathematics:**

- Financial and Insurance Mathematics
- Mathematical Analysis
- Mathematics for Information Technologies
- Mathematical Modelling in Physics and Technology
- Mathematical Structures
- Computational Mathematics
- Probability, Mathematical Statistics and Econometrics

**Computer Science:**

- Artificial Intelligence
- Language Technologies and Computational Linguistics
- Visual Computing and Game Development
Entry Requirements for Master’s Programmes

Applicants are required to:

- Hold or be working towards a Bachelor’s or Master’s diploma and provide a certified copy. In cases required by Czech law, a certification of equivalence of education must be submitted in the application.
- Provide a sufficient proof of English Language Proficiency; this should be demonstrated by providing your results with a required score in one of the standardized English tests. Any language test should not be older than two years.

In addition to this, depending on the programme for which you are applying, there are other specific requirements:

**Computer Science** programme: sufficient academic background in the relevant fields (see below for details); this can be demonstrated by solving a given take-home assignment correctly and on time, and by providing transcripts (academic records) of your previous education accompanied by syllabi of the completed courses (i.e. you must submit both the assignment and the transcript). For the take-home assignment, you may consult your notes, textbooks, internet resources, friends etc., but the submitted solution must be your own work. Solving the take-home assignment is not obligatory for the applicants for the study programme Computer Science – Language Technologies and Computational Linguistics.

**Mathematics** programme: sufficient academic background in the relevant fields; this can be demonstrated by providing transcripts (academic records) of your previous education accompanied by syllabi of the completed courses.

**Physics** programme: sufficient academic background in the relevant fields; this can be demonstrated by providing transcripts (academic records) of your previous education accompanied by syllabi of the completed courses.

**Application form:** online

**Application fee:** CZK 820

**Application deadline**: April 30, 2021

**Annual tuition fee**: CZK 140,000 (EU students: CZK 84,000)

**Transfer:** no
Faculty of Education

Charles University, Faculty of Education
Magdalény Rettigové 4, 116 39, Prague 1, Czech Republic

+420 221 900 233
information@pedf.cuni.cz

The foundation of the Faculty of Education was established almost a hundred years after a proclamation demanded by Czech teachers and later by the Czechoslovakian intelligentsia that university education is for all teachers of all school levels. After the formation of an independent Czechoslovak state following the World War I, this demand was expressed in the most vocal manner. It was, however, only after the World War II that the presidential decree and the Law governing university education of teachers was accepted.

With about 5,000 students, the Faculty of Education is the largest faculty of education in the Czech Republic. It trains and educates teachers in kindergartens, elementary schools, high schools and art schools, principals, and educators and staff working in leisure. The Faculty offers specialist education in the fields of education, psychology, special education, speech therapy and andragogy. The Faculty of Education is where Fine Art and Music Education are recognised as excellent.

Bachelor’s Programmes (3 years)
The Faculty of Education offers Bachelor studies, taught in English, as a combination of the study of two fields (a Maior + a Minor):

<table>
<thead>
<tr>
<th>Maior + Minor</th>
<th>Maior + Minor</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Language for Teacher Education + Music Education for Teacher Education</td>
<td>Music Education for Teacher Education + English Language for Teacher Education</td>
</tr>
<tr>
<td>English Language for Teacher Education + Playing Instrument for Teacher Education</td>
<td>Playing Instrument for Teacher Education + English Language for Teacher Education</td>
</tr>
<tr>
<td>Music Education for Teacher Education + Playing Instrument for Teacher Education</td>
<td>Playing Instrument for Teacher Education + Music Education for Teacher Education</td>
</tr>
<tr>
<td>Music Education for Teacher Education + Choral Singing for Teacher Education</td>
<td>Choral Singing for Teacher Education + Music Education for Teacher Education</td>
</tr>
</tbody>
</table>
English Language for Teacher Education
Graduates of the bachelor’s programme will be well-trained in linguistics, American and British literature, and s/he will be proficient in English. The study is conceived so that the graduate will be able to either continue for a master degree in teaching or other related programmes, or s/he can find employment in various state and international institutions.

Contact person: Petr Chalupský (petr.chalupsky@pedf.cuni.cz)

Music Education for Teacher Education
Graduates may find primary job opportunities as teaching assistants at school; pedagogues in an out-of-school music institutions or secondary opportunities as assistants in public administration or private company in culture, productive and senior education.

Contact person: Marek Valášek (marek.valasek@pedf.cuni.cz)

Choral Singing for Teacher Education
Graduates are prepared for posts in educational institutions for musical activities of children and adults, in cultural institutions, in churches etc. They are not prepared for the independent activity of a conductor. For a full qualification of a choral conductor, it is necessary to continue to the master programme.

Contact person: Marek Valášek (marek.valasek@pedf.cuni.cz)

Playing Instrument for Teacher Education
Graduates would find possibilities to work in different government and private institutions, to work as assistants of children, young people and adults in institutions for spare-time activities, and as teachers in music schools. They possess knowledge and skills in both components: special and general educational. The curricular outcome is not a qualification for teaching in elementary or high schools.

Contact person: Marek Valášek (marek.valasek@pedf.cuni.cz)
Master’s Programmes (2 years)
Training Teachers of General Subjects:
The Faculty of Education offers Master studies, taught in English, as a combination of two fields studies (Maior + Minor). One study programme is completely focused on a single field of study:

<table>
<thead>
<tr>
<th>Single field of study</th>
<th>Teacher Education of English Language for Lower and Upper Secondary School</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Maior + Minor</strong></td>
<td><strong>Maior + Minor</strong></td>

</tr>
</tbody>
</table>

**Teacher Education of English Language for Lower and Upper Secondary School**
This graduate is acquainted with the fundamental concepts of, and relations between, the listening and speaking disciplines including interdisciplinary approaches, is able to interpret texts of Anglophone literatures, has a good command of the latest theories and methods of English language teaching and can apply her/his knowledge and skills in her/his practice as a teacher.

**Contact person:** Petr Chalupský ([petr.chalupska@pedf.cuni.cz](mailto:petr.chalupska@pedf.cuni.cz))
**Teacher Education of Education for Upper Secondary Schools**
Graduates have thorough theoretical knowledge and practical skills prerequisite to erudite teaching of educational science at secondary schools and colleges. They have mastered the specialised terminology of educational science and related sciences and are knowledgeable in interdisciplinary issues and pedagogically relevant topics of modern social sciences. They can consider contexts of a wide range of educational problems, taking into account variability among individuals and in society. They can apply their knowledge and skills not only in creative teaching of educational disciplines, but also in social science research and in conceptualisation in education.

**Contact person:** Stanislav Bendl ([Stanislav.bendl@pedf.cuni.cz](mailto:Stanislav.bendl@pedf.cuni.cz))

**Teacher Education of Musics for Lower and Upper Secondary School**
Expected employment of the graduate in the following job positions:
- Primary opportunities: Music teacher at Middle school / Junior High school / Secondary school / High school / Junior High school; pedagogue or assistant pedagogue in an out-of-school music institution.
- Secondary opportunities: assistant in public administration or private company in culture, productive and senior education.

**Contact person:** Marek Valášek ([marek.valasek@pedf.cuni.cz](mailto:marek.valasek@pedf.cuni.cz))

**Teacher Education of Choral Singing**
Graduates achieve knowledge and practical skills in their field. They are able to apply all the acquired knowledge with educational-psychological and professional-didactic disciplines into music-pedagogic practice in correlation with all theoretical and practical components. They are qualified as choir conductors in a pedagogical, artistic, organisational and social area.

**Contact person:** Marek Valášek ([marek.valasek@pedf.cuni.cz](mailto:marek.valasek@pedf.cuni.cz))

**Teacher Education of Playing Instrument**
The graduate of the master study is fully qualified in the professional, didactic and pedagogic sphere as well as in the sphere of organisation, administration, general education and professional or personal culture. S/he acquires qualification as a music teacher at music schools, elementary and secondary schools.

**Contact person:** Marek Valášek ([marek.valasek@pedf.cuni.cz](mailto:marek.valasek@pedf.cuni.cz))

---

**Admission procedure:**
Deadlines for submission of applications, conditions for the admission procedure and other instructions for applicants will be published at [https://pedf.cuni.cz/PEDFEN-179.html](https://pedf.cuni.cz/PEDFEN-179.html). For any queries related to admission, please contact us at [information@pedf.cuni.cz](mailto:information@pedf.cuni.cz)

**Application fee:** CZK 820

**Annual tuition fee**: CZK 60,000
The faculty was established in 1990 to produce graduates with the necessary qualifications for work in the civil service, administration, economic management, social policy and social work, diplomatic services and mass media of all kinds, and also as a research institution in the fields of sociology, economics, public opinion, political relations, international relations and mass communication. The Faculty of Social Sciences currently offers four fully accredited Bachelor’s degree programmes and fourteen fully accredited Master’s degree programmes. Many of them offer the option for double-degree studies in collaboration with prestigious universities including the University College London and the University of Strasbourg. On top of that students can enrol in three Erasmus Mundus Joint Master Degrees Programmes operated within consortiums of leading European universities such as University of Glasgow, Leiden University and Aarhus University.

**Bachelor’s Programmes (3 years):**
- Bachelor in Economics and Finance
- Politics, Philosophy and Economics
- History and Area Studies
- Social Sciences

**Master’s Programmes (2 years):**
- Master in Finance and Data Analytics
- Master in Economics and Finance
- Corporate Strategy and Finance in Europe
- Balkan, Eurasian and Central European Studies
- Master in Area Studies
- European Politics and Society: Václav Havel Joint Master Programme
- International Masters in Economy, State and Society
- Geopolitical Studies
- International Economic and Political Studies
- International Security Studies
- International Master in Security, Intelligence and Strategic Studies – Erasmus Mundus Joint Master Degree
- Master in International Relations
- Public and Social Policy
- Sociology of Contemporary Societies
- Media and Area Studies
- Society, Communication and Media
- Journalism, Media and Globalisation – Erasmus Mundus

**Minimum requirements:**
Bachelor’s programmes are open to applicants who have already completed (or are about to complete) their secondary education. All Master’s degree programmes are open to students who have already completed (or are about to complete) a Bachelor’s degree in a related field.
Admission procedure:
The early-bird deadline is strongly recommended for students from visa-seeking countries who will need a student visa in order to study in the Czech Republic. There is no entrance examination. Applicants’ materials will be assessed by an admissions committee in March/May respectively. Successful applicants will be informed at the beginning of April/June respectively. Should you have any queries related to admission process, please contact us at admissions@fsv.cuni.cz.

Economics and Finance (BEF)
is a three-year programme offered to students with a completed secondary education. This programme is taught at the Faculty of Social Sciences by the members of the Institute of Economic Studies (IES). The programme aims to give the student a thorough grounding in both theoretical and applied economics and finance. We put emphasis on developing abstract analytical reasoning, which allows our graduates to solve complex economic and financial problems in various settings. The applicants must have a solid background in Mathematics and a good command of English. Courses are taught both by IES faculty and external professionals from the central bank, commercial banks and business analysts. Graduates typically assume challenging positions in banking, consulting, investment funds and public administration.

Application deadline (Early-bird)*: February 28, 2021
Application deadline (Regular)*: April 30, 2021
Application Fee: CZK 820
Tuition fee**: EUR 6,000 per year

Politics, Philosophy and Economics (PPE)
A three-year English-language Bachelor’s degree programme – modelled on the Oxford-style “PPE” – which aims to give the students a solid grounding in political science (including international relations), philosophy (especially political philosophy and social ethics) and economics. The programme is hosted by the Institute of Political Studies (IPS), but also taught by members of the Institute of Economic Studies (IES). The emphasis is placed on enabling students to learn to analyse complex social, political and economic issues in a multidisciplinary manner, looking at the problems to be solved from complementary perspectives. Since traditionally the PPE study programmes aim at educating civic, political and business leaders, the study of philosophy is included in the curriculum to foster critical and creative thinking. PPE also stresses the importance of the ethical and global dimensions of the social, political and economic reality. The fact that the English-language degree programmes at Faculty of Social Sciences (or Charles University in general) are attended by students from dozens of countries from all over the world facilitates such adoption of a global perspective on politics and economics.

Application deadline (Early-bird)*: February 28, 2021
Application deadline (Regular)*: April 30, 2021
Application fee: CZK 820
Tuition fee**: EUR 6,000 per year
History and Area Studies (HAS)
A three-year English-language Bachelor’s programme connects qualified modern history and area expertise with excellent language preparation. It is organized and executed by the Institute of International Studies (IIS) in cooperation with the Institute for Language and Preparatory Studies of the Charles University. History and Area Studies programme focuses on modern history, cultural and political development of Central Europe with particular respect to Czechia in Central European and global context. It combines the education in history and area studies with active training of the Czech language. The Czech language is employed in the seminar debates on topics taught in English from the second year of studies.

Application deadline (Early-bird)*: February 28, 2021
Application deadline (Regular)*: April 30, 2021
Application fee: CZK 820
Tuition fee**: EUR 4,000 per year

Social Sciences (SOSCI)
A three-year English-language Bachelor’s degree interdisciplinary programme aims to develop students’ analytical skills in social sciences. Primarily, the programme is focused on current transdisciplinary issues such as complexity management, governance, mediatisation of social relations or interdependence of society, technology and the natural environment. Secondly, social research methodology is stressed as a prerequisite for the development of students’ analytical skills and for finding practical solutions to complex issues. Both analytical and interpretative approaches are employed. The attention is particularly paid to the preparation of the Bachelor’s thesis as a way to develop soft skills and to conduct project-oriented research.

Application deadline (Early-bird)*: February 28, 2021
Application deadline (Regular)*: April 30, 2021
Application fee: CZK 820
Tuition fee**: EUR 6,000 per year

Master in Economics and Finance (MEF)
is a two-year English-language Master’s degree programme which aims to give the student a thorough grounding in both theoretical and applied economics. From the very beginning, the instruction of economics at IES has been designed selectively for students who are capable of abstract analytical reasoning, and this programme is no exception. This emphasis, supported by knowledge of mathematics, is one of the features that distinguish instruction at IES from other Czech economic schools of higher learning. Thus, the competitive edge of IES graduates is based not only on their managerial talent, but also on their analytical and reasoning abilities, and on having the necessary skills to solve problems individually in various environments. IES graduates continue to be in high demand and tend to be successful in both theoretical and practical fields (for example, in public administration, as capital market analysts in banks, investment companies, pension funds, etc.). Instruction and supervision are provided by leading economists and professionals who are involved in both international economic research and in applied economic policy or advisory work for the government. Some staff have had a long career in finance, investment banking and portfolio management in North America. Overall, publication activity is one of the main criteria for evaluating the work of the faculty members.
Master in Finance and Data Analytics (MFDA)
This two-year English-language Master’s degree programme is designed to pair the key areas of finance and data analytics. The programme takes a data-driven approach to the analysis of financial markets and organisational information covering key theoretical principles of finance, financial modeling and financial markets to prepare students for a dynamic career in finance, banking and a range of other sectors. The programme’s curriculum focuses on modern statistical analysis, data modeling, programming, big data and machine learning techniques. MFDA equips the student with a thorough understanding and advanced skills in theoretical and applied finance with an emphasis on computational aspects of the problems. Programme’s graduates will gain quantitative, statistical and technical skills crucial for modern finance and will have the expertise to independently define and creatively solve broad variety of theoretical as well as practical problems. Courses are taught both by faculty members of the Institute of Economic Studies (IES) and external professionals from international institutions, central banks and financial industry. Lecturers put emphasis on detailed and advanced knowledge of both financial theory and applied financial methods, with focus on computational aspects of the methods. In particular, courses include Big Data analysis, modern approaches to asset pricing using statistical learning, understanding of financial instruments, advanced econometrics, behavioral finance and time series analysis.

Corporate Strategy and Finance in Europe (CSF)
Master’s double-degree programme (DDP) with the University of Strasbourg is a two-year Master’s degree programme with a common curriculum taught in English offered for students with a completed Bachelor’s degree. The programme is based on the Bologna Process, and is intended to facilitate the collaboration between the Institute of Economic Studies, Faculty of Social Sciences, Charles University and Sciences Po Strasbourg, University of Strasbourg in teaching and academic research in the field of Economics. The degree programme covers two academic years. Each student on the degree programme is requested to spend one academic year at each of the partner universities in line with the Curriculum. Upon the completion of the studies, each student will receive the Diploma Master in “Corporate Strategy and Finance in Europe” from University of Strasbourg and the Master’s degree Diploma with the academic title “Magistr” from Charles University. The double-degree programme aims at providing the students with a broad knowledge and understanding of economic theory with a focus on financial and international economics corresponding to the present state-of-the-art. Programme graduates will have the expertise to independently define and creatively solve complex theoretical or practical problems in the field of financial and international economics using selected theories, concepts and methods. The graduates will be eligible to undertake decisions in changing conditions on the financial markets and will
possess the insight of the broader social and societal implications of financial and international economics. Double-degree graduates will be able to find a job on the global market, both in the financial sector and multinational companies, as well as in the public sector, not only in the Czech Republic or France, but also throughout the European Union. Graduates of both partner universities are in demand by leading private companies, but also major economic and political organizations and typically assume challenging positions in banking, consulting, investment funds, and public administration.

**Application deadline**: April 30, 2021  
**Application fee**: CZK 820  
**Tuition fee**: EUR 6,000 per year

**Balkan, Eurasian and Central European Studies (BECES)** is a two-year Master’s degree programme. It addresses the English speaking audience with a deep and versatile exploration of “the East”, understood as a territory composed of Central Europe, the Balkan Peninsula, and the Post-Soviet area, including the Caucasus and Central Asia. Primary attention is paid to modern history, politics and diplomacy, as well as to fundamental social, cultural and economic problems. It also offers students the chance to learn or improve their knowledge of the Czech language. The core courses provide an overview of crucial segments of the area from an analytical and multidisciplinary perspective, while the elective classes allow students to create their own specialization. The aim of the programme is to help students to write a Master’s thesis of sufficient quality to merit publication. Through the university network of exchange programmes, talented students may also be offered the opportunity to make a brief research visit to another country in the area. By developing the student’s knowledge of the Czech milieu and language, the programme may also serve as an access-point to some of our Ph.D. programmes. The programme is deliberately structured to take advantage of the multidisciplinary nature of the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a global perspective with attention to detail and local interests. It is an excellent stepping stone in developing an academic career in any of the Faculty academic disciplines, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

**Application deadline (Early-bird)**: February 28, 2021  
**Application deadline (Regular)**: April 30, 2021  
**Application fee**: CZK 820  
**Tuition fee**: EUR 3,000 per year for EU and EEA students / EUR 6,000 for non-EU and non-EEA students

**Master in Area Studies (MAS)**
Interdisciplinary programme offers expert knowledge and analytical-synthetic skills focused on modern history and current developments of Europe, Eurasia, and North America. The programme provides students with tools for social science analysis and allows them to build their own thematic and territorial profile according to their individual needs and future career plans. Graduates of the Master in Area Studies programme will be endowed with internationally recognizable multi-disciplinary training in the study of international affairs. They will be able to analyse individual topics arising within the region of their interest from a multidisciplinary point of view in terms of social sciences (sociology,
economics, political science, and international relations) and modern history. Programme graduates will be able to understand current issues in their historical, societal, political, and economic context. Mastering several foreign languages, they will be capable of reflecting local debate and local perspectives on transnational issues. Thanks to a systematic focus on academic writing, graduates will be capable of producing texts of a high professional and formal quality. They will be able to deliver qualified comments on the developments of states and societies of the studied regions. The programme graduates will become highly-skilled employees in the civil service and diplomacy, NGOs and international institutions as well as in private companies and mass-media. They will be well prepared for a variety of academic pursuits and will possess a wide range of knowledge and skills required in various social science fields.

**European Politics and Society (EPS): Václav Havel Joint Master Programme**

A joint-degree programme in partnership with Leiden University, Jagiellonian University in Krakow and University Pompeu Fabra in Barcelona. A multidisciplinary two-year programme linking the fields of European politics, contemporary history and culture, economy, international relations and policymaking. The key role of the programme is to identify and analyse challenges Europe faces today (migration, security, populism). The first semester of EPS is based on Master level introductory courses (in Prague); the second semester focuses on EU related courses (Krakow, Leiden). In the third and fourth semesters, the programme offers four different study tracks reflecting the diverse expertise of the Consortium members (Prague, Krakow, Barcelona, and Leiden). Each track combines various elective courses, research methods training, an internship and language tuition with an advanced research dissertation supervised by key staff from each Partner University. The EPS programme gives its students the possibility to acquire high-profile multidisciplinary knowledge and skills. The first goal of the EPS programme is to prepare a new generation of managers, policymakers and research leaders. The excellence of the programme is based on a central focus on the societal, political, economic and cultural processes that have formed contemporary Europe and its role in the international environment, the programme also fosters exchange among diverse European and non-European cultures, and offers a unique learning experience to both EU and non-EU students. EPS thus contributes to build a real trans-European community of students, experts and academia that deal with current European challenges.

**Application deadline (Early-bird and scholarship)**: February 28, 2021  
**Application deadline (Regular)**: April 30, 2021  
**Application fee**: CZK 820  
**Tuition fee**: EUR 4,500 per year for EU and EEA students / EUR 8,000 for non-EU and non-EEA students  
**Website**: [http://www.epsmaster.eu](http://www.epsmaster.eu)
International Masters in Economy, State and Society (IMESS) is an established two-year double-degree Master’s programme offered by a consortium of leading European universities headed by University College London (UCL). The central objective of the programme is to enhance global understanding and awareness of the wider European region. As well as developing cultural and linguistic knowledge of both Eastern and Western Europe, participants acquire the skills to identify and critically analyze key factors shaping the economies, states and societies of the expanding European region. The programme offers three distinct study tracks, reflecting the unique multidisciplinary expertise of the consortium institutions: Economics and Business; Politics and Security; Nation, History and Society. Students spend their first year of study at UCL, and their second year at one of the consortium partner universities in Continental Europe (including Charles University). Non-EU students may apply for an Erasmus Mundus Scholarship to help defray their costs, and there are also limited scholarship opportunities for EU students. Recruitment is handled by UCL.

**Application deadline (Scholarship)**: March 26, 2021  
**Application deadline (Regular)**: July 30, 2021  
**Tuition fee**: see the website [https://www.ucl.ac.uk/ssees/study-us/imess-international-masters-economy-state-and-society](https://www.ucl.ac.uk/ssees/study-us/imess-international-masters-economy-state-and-society)

Geopolitical Studies (GPS) is a two-year English-language Master’s degree programme which seeks to explore the dynamic relationship between International Politics and Human Geography, focusing on essential theories, thinkers and regions. Through the core courses, students will gain the theoretical tools and the historical background to develop a deeper analysis of the geography of the world they live in, while through their elective classes (which they may choose from a wide range of up to 30 classes per semester), they are free to strengthen their knowledge in related fields and concentrate on specific regions. The programme is deliberately structured to take advantage of the multidisciplinary nature of the Institute of Political Studies and the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a global perspective with attention to detail and local interests. It is an excellent stepping stone in developing an academic career in the field of Political Science, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

**Application deadline (Early-bird)**: February 28, 2021  
**Application deadline (Regular)**: April 30, 2021  
**Application fee**: CZK 820  
**Tuition fee**: 6,000 EUR per year

International Economic and Political Studies (IEPS) is a two-year English language Master’s degree programme which seeks to investigate contemporary political, economic and social issues from a multidisciplinary perspective. Although the predominant emphasis is on approaches from economics and political science, students will also be expected to explore historical and sociological perspectives. And in a world of omnipresent media, basic techniques for the analysis of the media will also be emphasized. Through the core courses, students will gain both the theoretical
tools and the historical background to develop a deeper analysis of the world they live in, while through their elective classes (which they may choose from a wide range of up to 50 classes per semester), they are free to develop their own specialization. The programme is deliberately structured to take advantage of the multidisciplinary nature of the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a global perspective with attention to detail and local interests. It is an excellent stepping stone in developing an academic career in any of the Faculty’s academic disciplines, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

**Application deadline (Early-bird)**: February 28, 2021  
**Application deadline (Regular)**: April 20, 2021  
**Application fee**: CZK 820  
**Tuition fee**: 6,000 EUR per year

**Master in International Security Studies (MISS)**  
is a two-year English-language Master’s degree programme which offers students a complex guide through security, conflict and strategic studies in the context of international relations. It is taught by members of the Institute of Political Studies of the Faculty of Social Sciences. The programme respects the multidisciplinary dimension of contemporary security studies but is firmly rooted in the international political aspects of the field. After initial methodological training, students will be introduced to theoretical concepts of security, conflict and strategic studies. The programme also focuses on European and transatlantic aspects of security and defence policies, regional contexts of security and conflicts, as well as specific issues of human or energy security. Graduates of the programme are prepared to pursue careers in security-related posts in government offices and public administration, international organizations, NGOs and transnational corporations. Some might also like to pursue a doctorate and an academic career.

Application deadline (Early-bird): February 28, 2021  
Application deadline (Regular): April 20, 2021  
Application fee: CZK 820  
Tuition fee**: 6,000 EUR per year

**Erasmus Mundus International Master in Security, Intelligence and Strategic Studies (IMSISS)**  
is a two-year Erasmus Mundus Joint Master Degree (EMJMD) developed by a consortium of four European universities – University of Glasgow (UK, leader), Dublin City University (Ireland, degree awarding partner), Charles University (degree-awarding partner) and OTH Regensburg (Germany). It is a unique interdisciplinary programme offering students a cutting edge training in several relevant security areas. Students on this degree programme will examine a broad range of contemporary security challenges, such as terrorism, civil war and conflict, mass migration, energy supply security, cyber security and new technologies, and transnational and serious organised crime. Students will also explore the intelligence and strategic approaches used by governmental and non-governmental players to combat these threats. The degree adopts a unique approach to the study of security by combining theoretical, applied and empirical knowledge and skill sets. Students will have
the opportunity to meet with and work alongside a range of academics and researchers from international partner universities and think tanks from around the world, as well as practitioner experts from governmental and industry security and defence sectors.

**Master in International Relations (MAIN)**

is a two-year English-language Master’s degree programme which provides students with the knowledge and analytical skills to understand and explain the international context of politics, economy, and security. It is taught by members of the Institute of Political Studies of the Faculty of Social Sciences. The world is growing ever more interdependent and major political decisions, influencing our everyday lives, are made not only by individual nation states but increasingly also by regional as well as global institutions. The programme helps students to understand how international and European politics work, and what are the challenges faced by states as well as business and societal actors in the globalized world. Students learn in depth about the functioning of the European Union and of the key global institutions which states have developed to address these challenges. They study how, if at all, international conflicts can be productively transformed into cooperation. In addition to providing students with a robust background in international and European politics, the programme puts an emphasis on the development of students’ analytical capabilities, abstract and critical thinking, and communication as well as language skills. Thanks to the broad scope of competences students acquire and deepen during their studies, the programme graduates become highly valued experts in national administration and diplomacy, European and international institutions, transnational corporation and NGOs, media, think-tanks, political parties, and academia.

**Public and Social Policy (PSP)**

is a two-year English-language Master’s degree programme which aims to provide students with current relevant knowledge of policy-making process and cultivate their analytical skills. It is taught at Charles University, Faculty of Social Sciences, by members of the Institute of Sociological Studies (ISS). In addition to theoretical knowledge about policy-making process, the programme will offer deeper knowledge in concrete policy domains such as social policy, health policy, educational policy, employment policy or others. Special attention in the programme will be given to research methodology and policy analysis skills. The combination of knowledge about policy process and methodology skills will lead to unique competences and excellent professional employment or for further studying or research career. Graduates will acquire the knowledge and skills that enable them to effectively and efficiently perform analytical, conceptual, organizational, interactive and managing tasks in creating and implementing public and social policies within international
context. By the same token, graduates will be able to pursue an academic career in the Czech Republic or elsewhere. In addition, graduates will be experts in concrete policy domains, such as health policy, educational policy, employment policy or others.

**Sociology of Contemporary Societies (SCS)**
The MA programme in Sociology of Contemporary Societies is a two-year English-language Master’s programme designed for students interested in gaining in-depth knowledge of the state of the present-day field of sociology and social anthropology, including both theory and research methods. It features a strong core of sociology and social anthropological courses in three specialisations from which the student chooses one: 1. Civil Society and Politics; 2. Anthropology of Space and Mobility; 3. Identities, Health and Bodies. In any specialisations students can choose either quantitative or qualitative research methodology as a focus. Every specialisation provides prerequisites for their graduates to be employed in the education sector, state and public administration, the nonprofit sector, corporate organisations, or academia. The programme is taught by members of the Institute of Sociological Studies (ISS) and their guests.

**Society, Communication and Media (SCM)**
Two-year English-language Master’s programme Society, Communication and Media (SCM) is designed for international students interested in gaining in-depth knowledge of the state of the present-day field including its theory and research methods. The curriculum offers foreign and Czech students up-to-date and relevant expertise in a prospective and rapidly evolving field of mass media and sociology. It is taught by members of the Institute of Sociological Studies and The Institute of Communication Studies and Journalism. The programme focuses on the study of society and its representation in the sphere of the media. It develops the methodological and analytical skills of students in a wide range of modern applications in sociology and media studies. The curriculum is oriented on sociological and media theory and at the same time on knowledge and skills in the field of empirical research methodology. Besides introducing general theoretical questions of the field and methodology of sociological research, the study will provide a deeper insight into the basic analytical methods of quantitative and qualitative research.
Media and Area Studies (MARS)
The programme brings together Media Studies and Area Studies. This combination provides in-depth and critical knowledge about processes of mediation and signification, and how space and geography, the political and social specificities of an area, intersect with them. Thus, the programme enables a thorough understanding of the role of context. Regions are not internally homogeneous, and they cannot be studied in isolation. Regions should be considered as particular socio-political and cultural entities with characterizing but complex, and sometimes contradictory, particularities. These particularities are extremely significant for the study of media spheres embedded in these regions. The theoretical-methodological background of the programme consists of a combination of post-colonial theory, media sociology, memory studies and political geography. MARS programme is a collaboration between the Institute of Communication Studies and Journalism (ICSJ) and the Institute of International Studies (IIS).

Application deadline (Early-bird)*: February 28, 2021
Application deadline (Regular)*: April 30, 2021
Application fee: CZK 820
Tuition fee**: EUR 3,000 per year for EU and EEA students / EUR 6,000 for non-EU and non-EEA students

Journalism, Media and Globalization – Erasmus Mundus (EMJ)
EMJ offers a unique educational experience with students studying and living in at least two European countries. The first year of the degree is spent with the entire cohort in Denmark at both Aarhus University and the Danish School of Media and Journalism. The second year sees students split into smaller groups that move to either Charles University, Prague, Czechia or the University of Amsterdam, The Netherlands. In addition, selected students will get the unique opportunity to substitute their second-semester courses in Denmark with courses taken at one of the prestigious universities, such as University of California, Berkeley, USA; University of Technology Sydney, Australia; City, University of London, UK and more. In general level, the programme focuses on analytical skills needed to identify and analyse cultural, political, and technological challenges to and opportunities for journalism across the globe. It combines theoretical, methodological and practical perspectives. Students can choose the specialisation of their study for the second year. The Prague’s programme offers the Totalitarianism & Transition Specialisation. This specialisation gives students a solid understanding of the contemporary history of post-totalitarian countries. Students work with key issues facing journalism in light of ongoing political, market related and technological transformations. Obtained theoretical knowledge becomes the point of departure for the practical courses in audio, video and multimedia journalism production. It makes a perfect point of departure for future employment, e.g. in foreign correspondence.

Application deadline*: January 10, 2021
Tuition fee**: see the website https://mundusjournalism.com/
Faculty of Physical Education and Sport

Charles University, Faculty of Physical Education and Sport
Jose Martiho 31, 162 52, Prague 6 – Veleslavín, Czech Republic

+420 220 173 073  iso@ftvs.cuni.cz
https://ftvs.cuni.cz/FTVSEN-385.html

The Faculty of Physical Education and Sport developed out of the Institute of Physical Education that became part of the university in 1959, and became a Faculty in 1965. The Faculty’s purpose is to educate and train professionals for work in Physical Education, sports, recreation and rehabilitation.

**Bachelor’s Programmes (3 years):**
- Coach
- Fitness Coach
- Physiotherapy

**Master’s Programmes (2 years):**
- Applied Physiotherapy
- Applied Sport Science
- Physical Education and Sport
- MA in Sports Ethics and Integrity (MAiSI, Erasmus Mundus Joint Master Degree)

**BACHELOR’S PROGRAMMES**

**Coach**
A task of the new study programme is to meet the demand for education of coaches who do not have ambitions to become a physical education teachers. All the students in the area of Physical Education and Sport have been educated and prepared so far for the career of physical education teachers.

The aim of the programme is to prepare experts in the area of a sport training with coaching and methodical, psychological, social, diagnostic and intervention competences in all levels of sport such as a professional one within their chosen branch of sport, sport for everyone and health reason physical activity programmes. The graduates are expected to be experts in the theoretical designing of training programmes, their application to the practical form of training using the didactic interaction with a specific group of population.

**Fitness Coach**
The study programme focuses on all aspects of sport training. The process of teaching includes the knowledge in the area of Kinanthropology and Sport Sciences. All the academics responsible for the teaching process prove their creative attitude. The “Coach” specialization focuses on the aspects of sport training in a particular field of sport. The “Fitness Coach” specialization focuses on the development of different aspects of fitness when dealing with specific types of population. It is an academic study programme. The accreditation of the programme in English brings internationally acknowledged
qualifications/licences. The programme is going to match with the requirements based on the National Frame of Qualifications when performed.

**Physiotherapy**

In the Physical Therapy study branch graduates acquire professional qualification for performing non-medical health care activities of physical therapists, and are authorized to perform activities in accord with the valid legislation of the Czech Republic, which stipulates the activities of health care workers and other professional workers on health care. A Bachelor’s programme graduate is an expert in the field of physical therapy who works together with all the members of a health care team in the coordination and execution of diagnostic, therapeutic, and preventive procedures and methods in the rehabilitation process and in care of the ailing.

The graduate will find work in state and private health care facilities such as therapeutic rehabilitation clinics, other specialized clinics, rehabilitation institutions, rehabilitation departments in hospitals of all types, spas, and facilities for treatment of pain, social facilities for children and seniors, and other specialized workplaces. The studies culminate with a defence of the baccalaureate thesis and the state Bachelor’s final examination.

Bachelor’s studies graduates can continue in the Physical Therapy Master’s programme (post-Bachelor).

**MASTER’S PROGRAMMES**

**Applied Physiotherapy**

Preparation of non-medical health care workers, following the acquisition of specialist qualifications for the performance of health care vocations – as physical therapists, following completion of a Bachelor’s programme in the field of physical therapy, is fully in accord with the valid legislation of the Czech Republic (Law No. 96/2004 Coll. and associated procedural regulations). The studies expand the knowledge and skills acquired through completion of Bachelor’s studies in the field of physical therapy and focus the physical therapist on acquiring specialized physical therapy care. Exercise of the vocation of physical therapist – graduate of the Master’s programme – is seen as within the framework of preventive, diagnostic, therapeutic, and rehabilitative care in the field of Physical Therapy. It prepares a potential candidate for further doctoral studies or work in the field of science and research. The studies culminate with a defence of the Master’s thesis and a state final examination.

**Applied Sport Science**

The study programme is designed for graduates in Bachelor degree programmes Coach or Fitness Coach primarily. Current trends in the area of organisation and planning of performance coaching are introduced to the students. The content of the study is built on the current level of knowledge in the wide area of applied sport sciences (e.g. physiology, biomechanics, nutrition, performance diagnostics and psychology). An essential part of the content is the methodology of research in various sports. Students develop their "soft skills" during the study. The graduates will find employment in the area of performance coaching or applied research in sport science. The graduate of the study programme Applied Sport Sciences is a fully qualified expert in the field of sports sciences. He/she will receive a complex knowledge and skills of general and specific character in the current
level of knowledge in sport sciences. The graduate is qualified to apply gained knowledge to the field of planning, organisation and evaluation of sports training and movement programmes. The graduate knows diagnostic methods, understands basic principles in both qualitative and also quantitative research. The graduate is also able to present and explain the results of a research.

**Physical Education and Sport**

The programme focuses on the area of Teacher Education and Physical Education and Sport, Kinanthropology-based on a wide range of scientific branches dealing with the society life traditionally called Physical Education and Sport. These branches form an essential part of the education of a qualified teacher. The study programme is a follow-up programme which enables graduates to learn the theoretical knowledge and skills in Humanities (philosophy, history of sport), Social Sciences (psychology, sociology, pedagogy of sport), Biomedical branches (anatomy, biomechanics, physiology in stress conditions) and interdisciplinary ones (anthropomotorics, fitness and healthy lifestyle, nutrition). In addition to that, there are also didactics of sport as well as didactics of individual sport activities.

In the Master’s study programme, students see deeply to the above-mentioned areas of education. They also learn a wider background of pedagogy-psychological, university and the branch-specific bases. In the subjects of didactics of individual fields of sport, the students prove the application of their knowledge and skills in the teaching process. The study programme offers the following specializations: Health Education, Education in Nature and Coaching Specialization. Study specialization has to be chosen at the moment of registering into studies.

The specialisation **Health Education** is connected with areas related to healthy lifestyle, topics covered by Framed Educational Programmes for Czech secondary schools and other types of secondary education including technical schools.

The **Education in Nature** brings similar knowledge where the one of pedagogy of experience and environmental education play the dominant role.

The **Coaching Specialisation** is focused on education of coaches in specific sports. It is based on pedagogy and psychology of sport, biomedical branches and again the didactics of individual fields of sport. The faculty offers following coaching specialisations: track and field, gymnastics, swimming sports, football, ice-hockey, basketball, tennis, handball, volleyball and combat sports.

The graduates can work as physical education teachers at all types of secondary schools. They can also widen their knowledge and skills in the particular branch by choosing one of the above mentioned specialisations.

The programme also enables the graduates to apply for any form of postgraduate education including the Doctoral Study Programmes.

**Erasmus Master Mundus programme: MA in Sports Ethics and Integrity (MAiSI)**

The MA in Sports Ethics and Integrity is a two-year Master’s programme offered by a consortium of six European universities, coordinated by Swansea University (United
Kingdom). Other partners are Charles University (Czech Republic), KU Leuven (Belgium), University of Peloponnese (Greece), Pompeu Fabra University (Spain), Johannes Gutenberg University Mainz (Germany).

The MA in Sports Ethics and Integrity represents a coherent and integrated interdisciplinary programme responding to the multidisciplinary nature of the problems manifest in sport governance. The partners have been selected according to their contributory areas of expertise, and form a team of co-workers and co-researchers dedicated to the exploration of issues and solutions in sports governance, ethics and integrity. The MA aims to develop in students high-level transferable skills, sensitivity to issues of ethics and integrity, and the skills, tools and resources to devise policy and implement sound practice. The MA is at a high theoretical level, but always relevant to the requirements of practical contexts, policy development and decision-making. Applicants may apply for Erasmus Mundus Scholarships. Admissions are handled by Swansea University. For further information and admission, see the link: http://www.maisi-project.eu

**General admissions requirements**
The applicant is required to attach to an application form the following documents:
- Motivation letter
- Sport doctor health confirmation
- Legalized copy of documents certifying completion of secondary education in the case of a Bachelor’s programme, or a legalized copy of a Bachelor’s diploma in the case of a follow-up Master’s degree programme
- CV and a letter(s) of recommendation
- Internationally recognised certificate of English language knowledge

All the documents have to be officially translated to Czech or English language. Further information is available at https://ftvs.cuni.cz/FTVSEN-412.html

---

Application form: online
Application fee: CZK 820
Application deadline (Early-bird)*: April 30, 2021
Application deadline (Regular)*: July 30, 2021
MAiSI – see the website: http://www.maisi-project.eu

Annual tuition fee**:
CZK 160,000 (Coach, Fitness Coach, Applied Sport Science, Physical Education and Sport)
CZK 220,000 (Physiotherapy, Applied Physiotherapy)
for MAiSI see the website: http://www.maisi-project.eu

Entrance exam dates: no entrance exam
English language requirements: internationally recognized certificate proving the applicant’s English language skills (at least B2 level)
Transfer: no
Faculty of Humanities

Charles University, Faculty of Humanities
Pátkova 2137/5, 182 00, Prague 8 – Libeň, Czech Republic

Originally founded as the Institute for Liberal Education of Charles University in 1994, the Faculty of Humanities gained full academic autonomy in 2000. It was established to provide study programmes at the Bachelor’s, Master’s and Ph.D. levels previously not available at the university. Its main research and academic focus is the humanities and social sciences. At Charles University, the Faculty acts as an interdisciplinary connector of philosophy, social sciences, and humanities, as well as natural sciences. The foundation of its developments is the Bachelor’s programme in Liberal Arts and Humanities which offers students unprecedented individual choice in course selection.

Bachelor’s Programme:
- Liberal Arts and Humanities (3 years)

Master’s Programmes:
- Deutsche und französische Philosophie (2 years, German)
- Historical Sociology (2 years, English)
- Oral History – Contemporary History (2 years, English)
- Gender Studies (2 years, English)

Liberal Arts and Humanities (English)
The Bachelor’s degree study of Liberal Arts and Humanities is centred on philosophy, history, cultural and social anthropology but also encompasses different academic fields in the humanities and social sciences – such as psychology, sociology and the study of languages, gender or art. The programme’s signature feature is a widely open study schedule that gives students an opportunity to focus on their individual abilities and interests. Every student completes mandatory courses in general humanities and social sciences and passes comprehensive exams relevant to each field. Additionally, students can choose from a wide offer of elective courses and create their own unique curriculums that complement their skills and interests. By choosing courses during their studies, students can gradually specialise in specific academic fields and focus on their preferred topics.

Deutsche und französische Philosophie (German)
The two-year Master’s study programme “Deutsche und französische Philosophie” is aimed especially at the study of classical and modern German philosophy, 19th and 20th century French philosophy, and German and French phenomenology. Against the background of basic questions on phenomenological philosophy, philosophical anthropology, and contemporary philosophy, the courses deal with analyses of epochal thresholds, intercultural philosophy, the philosophy of art, and the interdisciplinary project of ecological philosophy. The language of instruction is German and the tuition takes place at the Faculty. The students will benefit especially from individual approach and small work groups in seminars.

Historical Sociology (English)
The aim of the study programme of Historical Sociology is to cultivate research activities
and the education of experts with a specialization in the issues of long-term social processes and trends that have a significant impact on the life of contemporary societies. Above all, it deals with problems of modernization and social change, globalization trends and influences, integration and disintegration processes, relationship of continuity and discontinuity, religious and cultural pluralism, linking the global to the local, identification of the chances and risks of social development, analysis of conflict situations and the possibility of overcoming them. The need for understanding of all of these issues invokes the need for the development of adequate theoretical and methodological approaches, and also of the specific training of university students.

**Oral History and Contemporary History (English)**

The two-year Master’s study programme in Oral History and Contemporary History is intended for students interested in contemporary (European) history, in interviewing methodologies and in interpretative methods. Its main aim is to train students to conduct research through creating and analysing interviews, and developing fieldwork projects to address those historical and contemporary issues that require interdisciplinary investigation.

The Master’s study programme is divided into two sections, the first covers contemporary (Czech and international) history and events, the second is methodological and focuses on various interviewing techniques through which we can study contemporary history. It binds together two general approaches of studying history, the macro and micro approaches, and enables a thorough understanding of recent events in history. The Master’s study programme in Oral and Contemporary History has practical applications in academic and university research, historic preservation and legal and human rights work.

**Gender Studies (English)**

The Master’s programme in Gender Studies offers the opportunity for a systematic and interdisciplinary academic study of theoretical and methodological tools for researching and exploring gender issues in historical perspective, with a consideration of cultural and ethnic aspects of any given topic. The study programme applies intersectional and interdisciplinary perspectives on gender as one of the basic principles organising human society and culture. Gender studies focus on the analysis of historical as well as contemporary manifestations of gender order, influence of feminist and queer theories and methods in science, research and other aspects of gender order they also probe the relationship between gender and other categories of social differentiation and stratification such as race/ethnicity, social status, age, sexuality, and/or disability.

**Application form**: online
**Application deadline***:
March 31, 2021 (BA Liberal Arts and Humanities)
April 30, 2021 (MA programmes)
July 31, 2021 (Deutsche und französische Philosophie)
**Annual tuition fee******: EUR 2,000 (all programmes in English), EUR 200 (programme in German)
**Application fee**: CZK 820
**Entrance exam**: Entrance exam is required only for the programme Liberal Arts and Humanities
The Protestant Theological Faculty was established by the law of the Czechoslovak Republic in 1919 and was originally called the Hus Czechoslovak Evangelical Faculty of Theology. It was incorporated into Charles University in 1990. It offers programmes in Protestant theology and in social work, and trains men and women to work in the ordained ministry in churches, and various social work fields. Graduates from this Faculty also work in a wide range of settings where training in the humanities is called for.

**Bachelor's Programme in Protestant Theology**

This three-year programme is concentrated mainly on a basic knowledge of theology in its systematic, historical, and cultural dimensions. Graduates are capable of working with biblical texts in the original languages, with the help of current specialist methods. They have basic skills in the field of the understanding and interpretation of texts especially in the Christian tradition, and are capable of interpreting them in their relevant literary, historical and ideological contexts. Particular attention is paid to acquiring a knowledge of the major world religions, philosophical thought, Christian ethics, and ecumenical issues. Students must follow the course full-time in Prague. Those successfully completing the programme will be awarded a Bachelor’s degree by Charles University.

**Master's Programme in Protestant Theology**

This two-year programme is open to those who already have a Bachelor’s degree in theology and have passed an examination in Greek, Hebrew, and Latin. It enables students to deepen their theological knowledge in the fields of New Testament Studies, Old Testament Studies, Church History, Systematic Theology, Practical Theology, Theological Ethics, Religious Studies, and Philosophy. Students must follow the course full-time in Prague. Those successfully completing the programme will be awarded a Master’s degree by Charles University.
