
Caregiver Needs Survey

Join the Survey Relating to the Needs of Caregivers at CU!

Whether you have caregiving responsibilities or not, we would like to ask you to complete a questionnaire that will provide us with feedback on what it's like to study or work at CU for those who care for children, elderly, or other dependent household members. **We are also interested in the perspectives of those who are not caregivers**, in terms of how they perceive the climate at their workplace or faculty. Therefore, please give this questionnaire your attention, even if you are not currently involved in family caregiving.

The results of the survey will be used to develop a new **Equal Opportunities Plan for the period 2025-2027**, focusing on work-life balance issues. By filling out the questionnaire, you can influence the direction of Charles University in this area.

The time it takes to complete the questionnaire varies depending on your caregiving situation, ranging from 10 to 30 minutes. We realize that this is a significant portion of your time, however, we believe that the relevance of the feedback in this area will convince you to dedicate your valuable time to this survey.

The questionnaire is completely **anonymous** and **voluntary**, with the Institute of Sociology of the Czech Academy of Sciences handling the research implementation, including data processing for Charles University.

Some of you have received an invitation to fill out the questionnaire by email. If this is not the case, you can voluntarily participate in the study through the following links:

If you have any questions, please contact the Equal Opportunities Coordinator, Iveta Bayerova, at iveta.bayerova@ruk.cuni.cz.

Thank you very much for your time and feedback, we greatly appreciate it!
