# Jinonice Campus

---

The teaching building in Prague 5, Jinonice, at U Kříže Street No. 661 is managed and used by the Faculty of Social Sciences. In order to ensure satisfactory conditions for teaching and other student activities, the building was extended and part of the original building was reconstructed. Part of the project was the acquisition of technological resources supporting current trends, i.e. to match the world's top universities in the way and conditions of teaching. An important element of the project is the establishment of laboratories for practical teaching and the retrofitting of the library at FSV UK. Emphasis was placed on achieving highly efficient, energy-efficient and environmentally friendly operation. The project was funded by the Operational Programme OP VVV. The opening ceremony after the completion took place in April 2024.
