
Open Science

Do you know what's **OPEN SCIENCE**?

And do you want to know more?

Come **23. September at 15:00** to **Kampus Hybernská** or **join on-line!**

- course will introduce the basic principles of open science practices
- the OS paradigm will be presented
- the attendees will learn about different strategies how to provide open access to their publications and how to make their work reusable
- the module will cover the basics of copyright and licensing with a particular focus on Creative Commons licenses.
