
Invitation to the Open Science Course

27 February 2025

In the Open Science workshop, you will learn the basic principles of open science and strategies for ensuring open access to your scientific publications while increasing their reusability.

Date: March 12, 2025, 14:00–16:00

Format: In-person + online, in English

Location: Hybernská Campus A3 + online

Lecturers: Mgr. Dagmar Hanzlíková, Ing. Milan Janíček (Open Science Support Centre, Central Library of Charles University)

The workshop will focus on the following key areas:

- Principles and benefits of open science,
- Open publishing strategies,
- Basics of copyright and licensing, with a particular focus on Creative Commons licenses.

Participants from the autumn training series appreciated the depth and breadth of the topics covered: *"It was touching on really many facets of this topic. There were things mentioned I didn't know."*

This training will expand your expertise and help you build new professional connections. Don't miss this opportunity to advance your career!

Registration for the course is available via the [Charles University Education Portal](#).

The Open Science course is part of the **spring training series for early-career researchers at Charles University**. A total of **10 specialized courses** are offered, based on the [European Competence Framework for Researchers](#). The courses are designed for postdoctoral researchers and research assistants across disciplines, with some also open to Ph.D. students. They are conducted in English and open to all interested participants, not just international colleagues.

You can find an overview of all courses on the [Postdoctoral Hub website](#) .
