External training offer

Tips for workshops and webinars from external sources, suitable for postdoctoral researchers and early-career academics. Please note that Charles University is not responsible for their content or quality.
Getting started with SciVal – An overview!19 August 10:30 AM
Not sure where to start with SciVal? This online training will introduce an overview and key features of Elsevier's research intelligence platform SciVal, a tool that provides access to research analytics data. Used in the right context, SciVal can help you track Institutional Performance, track the impact of your Institutions publications and identify potential collaborators. The webinar will be useful for researchers and faculty members, as well as administrative staff members, research managers, and librarians, who would like to start using SciVal or to refresh their knowledge.

Registration
SciVal available for Charles University
