## **RESULTS OF THE 11th ROUND OF THE PRIMUS COMPETITION – OVERVIEW OF PRIMUS PROJECT PROPOSALS RECOMMENDED BY THE RESEARCH BOARD OF CHARLES UNIVERSITY FOR FUNDING FROM 2027**

Overview of proposals from the 11th round of the Primus competition recommended by the Research Board of Charles University for funding from 2027 (available from 1st July 2026)

Projects will be funded if the funding proposal is accepted by both the principal investigator and the respective faculty (or higher education institute). Negotiations with the faculties regarding project funding are currently underway. If an agreement on the funding of a particular project is not reached, it is possible that additional projects may subsequently be proposed for funding (see Article V, Sections 7 and 8 of the Primus Competition Rules).

The Rector's final decision on the allocation of financial resources for project implementation, including the final comprehensive evaluation of the submitted proposals, is made available in the electronic database for project proposal submissions. The 15-day period for filing any objections to the decision begins on the day the project proponent is notified that the decision and the comprehensive evaluation have been uploaded and made accessible in the IS Věda system.
