
Financial Support

Financial Support for International Credit Mobility

If you are a student from a partner university with which Charles University has an **approved cooperation project under the Erasmus+ International Credit Mobility (ICM)** programme and you **have been nominated by your home university** to study at Charles University, you will receive an Erasmus+ grant after your arrival to support your stay here. The grant is paid in cash in euros and calculated according to the rates listed below.

- Students staying for **2 months or less** will receive 100% of the grant shortly after arrival.
- Students staying at Charles University for **more than 2 months** will receive 70% of the grant at the beginning of their mobility and the remaining 30% approximately one month before the end of their mobility.

[Individual Support](#) [Travel Support](#)

[Students with Special Needs](#)

Individual Support

	Duration	Grant amount
Long-term mobility	2–12 months	850 EUR per month
Short-term mobility	Up to day 14 of the activity	79 EUR per day
	Days 15–30 of the activity	56 EUR per day

Travel Support

Travel distance*	Standard rate	Green travel**
10-99 km	28 EUR	56 EUR
100-499 km	211 EUR	285 EUR
500-1999 km	309 EUR	417 EUR
2000-2999 km	395 EUR	535 EUR
3000-3999 km	580 EUR	785 EUR
4000-7999 km	1188 EUR	
8000 km or more	1 735 EUR	

* The travel distance is calculated using the distance calculator available [here](#) . Prague, where Charles University has its registered office, is used as the point of departure. Please note that the calculator only recognises cities.

**Green Travel

- The following are considered environmentally friendly means of transport: **train, bus, bicycle, boat, provided that boat travel is combined with another low-emission means of transport, shared car travel, or carpooling.**
 - For travel by shared car, you must submit the original statutory declaration signed by everyone who travelled in the vehicle. A template is available for download here: [Statutory Declaration for Carpooling](#).
- **Important:** It is not considered carpooling if someone drives you abroad and then returns home without you. Carpooling is only eligible when everyone travelling in the car intends to stay at the destination. For example, you may travel together with other students who are taking part in an Erasmus+ mobility at the same university.
- You are eligible for the higher green travel grant if you use an environmentally friendly means of transport for at least one of your journeys (to the Czech republic or back home, or both).

- Participants travelling a distance of less than 500 km should generally use low-emission transport, such as a train, bus or shared car.
- You must make a **binding choice of your means of transport when completing the questionnaire in Microsoft Word sent to you by e-mail**. The amount of your grant will be calculated on the basis of the option you select.

Additional Grant for Students with Special Needs and Fewer Opportunities

One of the programme's **main priorities is to provide individual support and respect the specific needs of every applicant**, including students facing health-related, physical, mental health or socioeconomic disadvantages. The most important thing is your motivation and determination to go abroad!

The additional financial support is usually EUR 250 per month. However, each student's needs are assessed individually, and you may receive additional funding to cover all eligible costs related to your specific needs.

Who Is Eligible for the Additional Grant?

- Students with physical, health-related or mental health disadvantages
- Students facing financial barriers
- Students with specific dietary requirements
- Students receiving an orphan's pension
- Students with children.

Examples of Eligible Costs

- Transport: the difference between the cost of standard transport and the cost of the required additional or specially adapted transport.
- Specially adapted study materials.
- Assistance services.
- Accommodation: the difference between the cost of standard accommodation and the cost of the required additional or specially adapted accommodation, such as accessible accommodation close to the receiving higher education institution.
- Medical care, including regular medical appointments in the Czech Republic or abroad, rehabilitation and physiotherapy.
