SOCKA: Society of the Students of Sociology

Socka is a student group aiming to improve the atmosphere at the Department of Sociology by organizing regular events of all kinds for both students and teachers. For example Socinema, a series of movie screenings followed by a discussion with an invited expert (and later by a pub session). Each year, we also throw a Christmas party for all students, teachers and graduates of our department, where we can all meet in a more informal setting. For foreign students, society offers induction events, as well as university and city tours.
